Gandhipath West, Jaipur

Professional Summary

Results-driven Flutter Developer with 2 years of experience in building, testing, and deploying high-performance, cross-platform mobile applications. Proficient in Python for backend development and scripting, with a strong ability to translate complex requirements into clean and efficient code. A collaborative team player dedicated to creating seamless user experiences.

Professional Experience

Flutter Developer

3Handshake Innovation Pvt. Ltd
Jan 2025 – July 2025

A dedicated Flutter Developer focused on building high-performance, cross-platform mobile applications. Adept at creating intuitive user interfaces and writing clean, maintainable code to deliver seamless user experiences.

Linux Administrator

Avyukta Intellical
March 2025 – September 2025

Asterisk professional skilled in designing, configuring, and troubleshooting custom VoIP and telephony solutions. Expertise in managing dial plans, call routing, and SIP trunking to build reliable and scalable communication systems.

Stem Instructor

Padmanabh Innovation
Jan 2025– February 2025

An engaging STEM Instructor with a proven track record of teaching students in Jamshedpur. Expert at breaking down complex technical subjects and developing hands-on learning experiences that inspire curiosity and critical thinking.

Linux Administrator

Avyukta Intellical
Jan 2025 – August 2025

Asterisk professional skilled in designing, configuring, and troubleshooting custom VoIP and telephony solutions. Expertise in managing dial plans, call routing, and SIP trunking to build reliable and scalable communication systems.

Education

Bachelor's of Vocational Degree

Bharatiya Skill Development
University (Pursuing)

As a graduate of the B.Voc in IT and Networking from BSDU, I gained extensive hands-on experience based on the practical Swiss dual model. My training focused on configuring routers and switches, administering Windows and Linux servers, and troubleshooting complex network issues to ensure robust system performance.

Electrician Diploma

ITI Sanganer
Graduated: August 2022

My electrician diploma provides an expert understanding of power systems and physical cabling, a crucial advantage for managing and troubleshooting the foundational reliability and safety of any IT network infrastructure.
